The One and Only Billy Fury
MVF3

The Album of the Month as chosen by the Tuesday team (or, more specifically, by Clive) is MVF3 *The One and Only Billy Fury*.

Here are some track selections:

Halfway to Paradise - this is probably his best ever hit

I Will - more of a ballad

It's Only Make Believe - this cover of a **Conway Twitty** song takes pride of place in Clive's personal collection

A brief introduction that I borrowed from the Internet (www.vh1.com)

"In the early days of British rock & roll, there were dozens of contenders for stardom: **Tommy Steele**, **Cliff Richard**, and **Marty Wilde** were among the players who rose to the challenge for at least a few years. **Billy Fury**, by contrast, was the real article from day one, and never really surrendered the title. He was also the most prodigiously talented of his generation of British rock 'n roll singers, a songwriter of considerable ability, and a decent actor as well."
