

**Featured Artist of the Month**  
**August 2007**

**John Denver**  
***The John Denver Collection***  
**CW6**

I have been a **John Denver** fan since being introduced to his music in the early 1970s.

This CD of 16 songs from his large repertoire is a very nice example of the variety of his writing.

It includes *Annie's Song* and *Leaving on a Jet Plane*, probably two of his most famous songs and fun songs such as *I'd Rather Be a Cowboy* and *Thank God I'm a Country Boy*. *Love Again*, *Perhaps Love* and *Follow Me* give a taste of the gentle side of **John Denver**.

I am sure it will bring back some happy memories for our listeners who enjoyed **John Denver's** music in the 70s and 80s and may even have seen him perform live in the UK as I did at the Albert Hall in London. All in all I think this CD will appeal not only to country music fans, but also to a wider audience who will enjoy listening to his unique voice and style.

I am delighted it is the Album of the Month for August.
